CDC Leading Causes of Death in Females. Women's health information, tips, and research from the Centers for Disease Control and Prevention.

Leading Causes of Death - Women's Health - CDC

x Intrathoracic omental herniation (ITOH) is the herniation of the omentum through the esophageal hiatus without herniation of the stomach. It is a rare disease and serious complications due to ITOH have not been reported in the literature.

The American Journal of Emergency Medicine Home Page

Dental fear is a normal emotional reaction to one or more specific threatening stimuli in the dental situation. However, dental anxiety is indicative of a state of apprehension that something dreadful is going to happen in relation to dental treatment, and it is usually coupled with a sense of losing control. Similarly, dental phobia denotes a ...
