Quakers, also called Friends, are a historically Christian group of religious movements formally known as the Religious Society of Friends, Society of Friends or Friends Church. Members of the various Quaker movements are all generally united in a belief in the ability of each human being to experientially access "the light within", or "that of ...

Age and gender. Patient age appears unrelated to development of psychiatric symptoms after corticosteroid use. 2 One study suggested women are twice as likely as men to develop psychiatric symptoms (77 versus 38 cases in 115 patients), 3 but many illnesses that require corticosteroid treatment occur more frequently in women.
