The binomial theorem was known for the case by Euclid around 300 BC, and stated in its modern form by Pascal in a posthumous pamphlet published in 1665.

Binomial Theorem -- from Wolfram MathWorld

Aristotle was one of the greatest philosophers who ever lived and the first genuine scientist in history. He made pioneering contributions to all fields of philosophy and science, he invented the field of formal logic, and he identified the various scientific disciplines and explored their relationships to each other.
